

The organisation "Leergeld" wants all children to join in

You are a parent and you would like your child to join other children. To go on a schooltrip, join a sportsclub, and like other parents to make a contribution to the school fund. Being able to ride to school on your own bike together with other schoolmates also makes a difference for children. "Leergeld" can help you pay for these extra costs, including those of a computer, when you do not have the money for all these expenses at the right time.

Our motto is: let them join up now and they will stand their own ground all the better. How does this work out? We visit you at home, so no queuing at an office window. At your home one of our staff will tell you what the organisation can do for you. What are the things that your child cannot take part in? What help may the town council have to offer? How can our organisation be of assistance?

We work closely together with clubs, schools and businesses. We can arrange a 50% discount on club fees or contributions. We can also help with the purchase of a bike. We can also contact the school when there is a school trip your child would like to join if you could afford it.

Perhaps we can help you out in a number of situations where money is a problem for the happiness of your child. Please feel free to visit our website and contact us, or to register your child with us.
